

FAIR USE VIDEO

Cindy Scull - KEGL

"I've been going through all of their work and I am stunned at how good they are."

MUSIC MERGED WITH THE SILVER SCREEN

Formed out of necessity, plus the sheer boredom resulting from uninspiring entertainment, Fair Use Video is an independent artist collective, driven by the initiative to produce an impactful new media experience, using familiar visual elements to help tell their story.

Utilizing digital projection, multiple video monitors, precisely timed lighting schema and boasting a minimum of eleven performing members (sometimes on tiny stages), Fair Use Video's live events seem to conjure an awakening of the senses.

Celebrating the addition of a third release to their discography (Fall 2017), and unveiling an entirely new multimedia extravaganza, Fair Use Video commits to continue to embed their craft into the moral fabric of life.

Founding Members of Come in Your Costume
Headlining each event, booking, marketing and much more, Fair Use Video created an annual arts festival to celebrate Halloween.
